

金子半之助

Rooted in old Nihonbashi, **Kaneko Hannosuke**

honors the legacy of Edomae tempura.

Each piece is fried to a light finish in a special oil

blend and served over warm Japanese rice

finished with a **secret generational tendon sauce**

that captures the classic taste of Tokyo.

From premium ingredients to handcrafted

Arita ware bowls, every detail is curated to deliver

an authentic and consistently refined experience

from the first bite to the last.

金子半之助

Each bowl at **Kaneko Hannosuke** is served in custom **Saga Arita ware**, a traditional Japanese porcelain known for its refined craftsmanship.

Designed with a unique double-layer structure, the bowl helps retain heat, keeping every element warm while preserving the ideal texture of our tempura. It reflects our commitment to precision, authenticity, and the art of Japanese dining.
